Objective

Final-year Computer Science student with hands-on experience building and deploying full-stack web applications using the MERN stack. Independently shipped two live projects and looking for an entry-level or internship opportunity to grow and contribute.

Technical Skills

Languages: JavaScript (ES6+), Python
Frontend: React.js, HTML5, CSS3, Tailwind CSS
Backend: Node.js, Express.js, REST APIs, JWT Authentication
Database: MongoDB, Basic SQL
Concepts: Basic Data Structures & Algorithms, OOPs, DBMS, OS, Computer Networks

Projects

UI Arena — Full Stack Frontend Challenge Platform

[Live](#) | [GitHub](#)

React.js • Node.js • Express.js • MongoDB • JWT • Tailwind CSS • REST APIs

- Designed and developed a full-stack frontend challenge platform using the MERN stack, featuring a browser-based coding environment with Monaco Editor and live HTML/CSS preview for writing and testing challenges without external tools.
- Optimized application performance through lazy loading and WebP image compression, reducing image payload sizes by over 80% and achieving a **Lighthouse Performance Score of 93**.
- Built a leaderboard, challenge progress tracking, bookmarking, and a personalized dashboard to help users practice consistently and monitor their progress.

EasyBasket — Full Stack E-Commerce Platform

[Live](#) | [GitHub](#)

React.js • Node.js • Express.js • MongoDB • JWT • Tailwind CSS • Stripe • Vercel • Render

- Architected a production-grade multi-vendor grocery marketplace with hyperlocal delivery, Stripe payments, and 3-tier role-based access control (User, Vendor, Admin) using the MERN stack.
- Implemented hyperlocal product discovery using MongoDB Geospatial Queries, enabling users to find nearby products and stores based on their real-time location.
- Engineered 22+ REST APIs across the full order lifecycle — from authentication and product management to Stripe payment processing, location services, and Cloudinary image handling.

Personal Portfolio Website

[Live](#) | [GitHub](#)

- Designed and deployed a fully responsive developer portfolio to showcase projects, technical skills and resume

Education

B.Tech in Computer Science (Data Science)

2023 – 2027

Raghu Engineering College, Visakhapatnam

CGPA: 8.06 / 10.0

Certifications & Achievements

- Solved 100+ coding problems on LeetCode** covering Arrays, Strings, and basic Data Structures, improving problem-solving and algorithmic thinking.
- NPTEL Elite Certification** — Programming in Java
- JavaScript Course Completion** — Infosys Springboard
